Frontend : React.js, JavaScript, TypeScript, Tailwind CSS
Backend : Node.js, Express, MongoDB, Python, REST APIs, GraphQL, Docker

Experience

Blockchain Developer Intern   February 2025 - present
FinSocial Digital Systems

- Engineered Solidity-based smart contracts for a decentralized market builder and built a custom DEX, enhancing tokenomics and liquidity management.
- Collaborated with teams to research, design, and architect secure, scalable DeFi solutions using industry-standard protocols and tools.

Associate Python Developer   July 2023 - August 2024
Turbolab Technologies, Kochi

- Improved web scraping efficiency, reducing execution time by approximately 80%.
- Containerized scraping scripts using Docker, streamlining deployment processes.

Software Engineer Intern   July 2023 - December 2023
Turbolab Technologies, Kochi

- Developed and optimized React TypeScript components, improving front-end efficiency.
- Collaborated on the development of an internal CSS framework.

Projects

Decentralized Cryptocurrency Exchange

- Implemented DEX features using the 1inch aggregator to compare the best prices and the lowest fees.
- Fetched on-chain data using Moralis APIs and enabled Web3 authentication with WAGMI to build a responsive frontend.

Me.D - A Blockchain-based Medical Records System

- Developed smart contracts using Solidity for secure NFT-based medical records.
- Integrated IPFS for decentralized storage and Truffle for contract deployment.

Courses / Certifications

Certified Ethereum Developer	Kerala Blockchain Academy
Certified Blockchain Associate	Kerala Blockchain Academy
Mastering Web3	University of Nicosia

Education

Bachelor of Technology in Computer Science and Engineering
Federal Institute of Science and Technology, Angamaly, Kerala   2019 - 2023
